# CLIMB

shelving system ●● 2011

## YOUR BOOKS DESERVE THE BEST

Climb is an ingenious shelving system made of beveled wooden boards supported by metal wires.

The design plays with the sensation of tension of the wires that grasps the wooden shelves and becomes the structure. Climb is a system available in different dimensions, both for the home and the office.

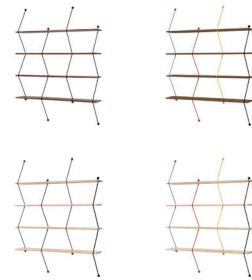

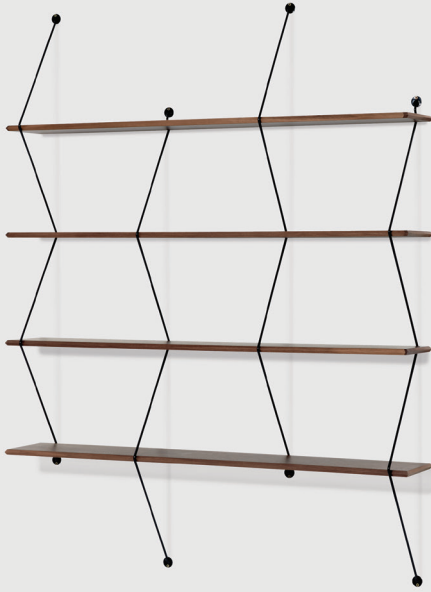

Climb comes in walnut or beech that can be combined with black, chrome, or colorful metal wires for either a sober and luxurious feel or a playful statement.
