ZAG
Hooks ●● 2018

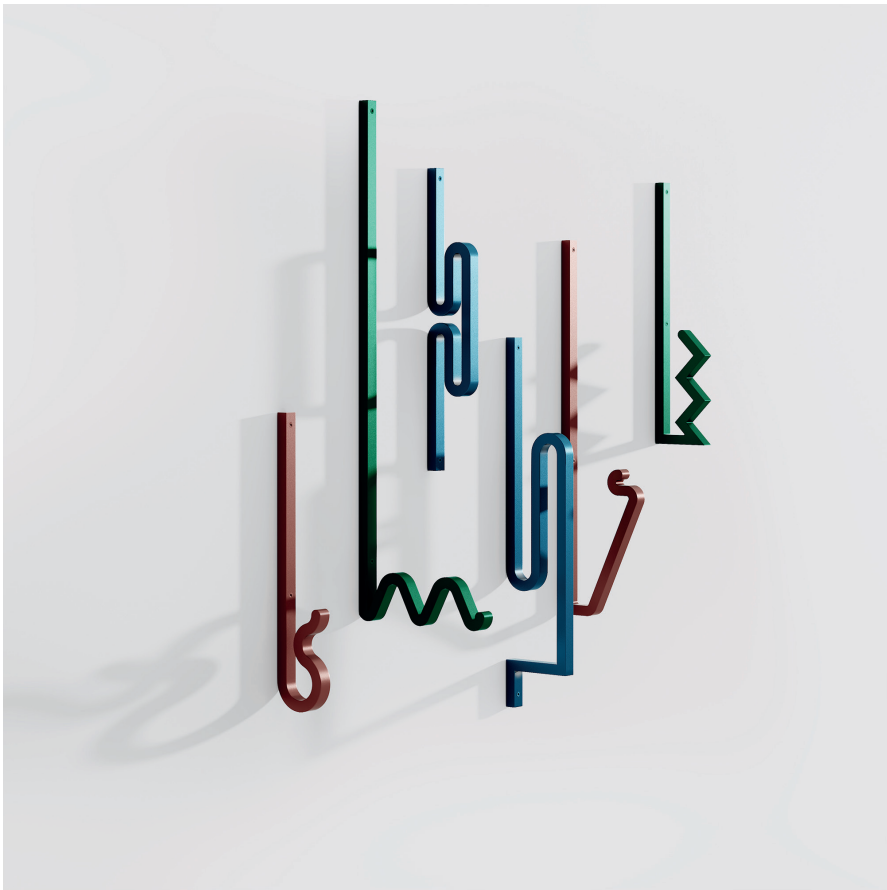

Zag is a family of coat hooks. Their varied shapes are inspired by barrettes, pins, or twisted metal rods combined to create a graphic composition. Each element offers a different way to hang your clothes, your bag, or any accessory.

The modern 'sans serif' fonts simple and strong shapes were used by Bling studio to create these metal shapes. The lines

intersect and combine to create graphic shadows on your wall. You can create your own sculptural composition by combining the Zag elements.

3 sets of 2 Zag hooks are available with different colors. You can combine them for a visually infinite number of compositions.

The designers

Anaïs Maillard & Charles Corthier created the studio bling. in 2018.

Their work reflects and defines their view of design : an artistic approach of the discipline. Starting from daily observations, their productions are focused on translating a reality marked by memories, sensations, past moments. They are trying to arouse emotions and reflections through contemplative objects, as witnesses to a certain temporality.
